Product description:

The delightful pattern and highly energetic colours of the mural from the Breeze collection by the Belgian manufacturer Decoprint will win the hearts of those who value originality and unique style. Tropical leaves with exotic flowers and chameleons on a light grey background will give the interior an unusual character. Climbing from the bottom to the top, the ornament will make the walls look higher, so the wallpaper will be suitable for rooms with lower ceilings. This type of wall covering will uniquely enliven any interior, being its complete or partial metamorphosis.
