Product description:

Modernist pattern depicting a portrait of a female face. The pattern looks as if it has been sketched in pencil or charcoal. The artistic motif of a woman's face will perfectly fit into interiors that need a feminine touch. Ideal for the living room, bedroom, dining room, bathroom or teenager's room. The murals are created individually for each customer, which is why the price of an order is determined after determining the size and choosing an interesting surface. The customer himself defines the frame he is interested in. Please contact us for an offer or A5 sample.
