Product description:

Architectural mural depicting an etching of an ancient Greek Ruin. The original design, taken from the art of the King's artists, will be a perfect complement to the interior. The structure of the canvas further supports the striking effect of the artwork, making it look as if painted on a fence. The mural has a vinyl coating, which has very good resistance to washing and mechanical damage. The design comes in three colour variations, black and white, blue and white and beige and white. The murals were designed by the Belgian brand Arte International, in the Sculptura collection. Synonymous with luxury and sophisticated good style. The mural is 2 metres wide (two panels of 100 cm each). The height is 300 cm.
