Product description:

An original wallpaper with a motif of intertwining circles perfectly reflects the atmosphere of the collection - combining the simplicity of the design with strong, glossy colours. The black gloss is perfect for the lobby and restaurant interiors. The Versace IV collection is rich in colour, gloss, and tactile texture - everything that is associated with a luxurious and highly recognisable brand. Floral motifs flow seamlessly into geometrics and ornaments, and all the wallpapers are united by Ganni's characteristic sign Versace - the jellyfish. The attention to detail and the excellent quality of the vinyl from which the wallpapers are made is a perfect combination. Vinyl wallpaper on fleece. Washable, impact resistant, easy to install.
