Product features:

Manufacturer: Versace

Collection: Versace IV

Product attributes:

Product description:

The original wallpaper with the motif of intertwining circles perfectly reflects the atmosphere of the collection - it combines the simplicity of the pattern with strong, shiny colours. Bright green and gold will work well in the living room as well as in the lobby or bedroom. The Versace IV collection features rich colours, shine, and a perceptible texture - everything that is associated with a luxurious and highly recognisable brand. Floral motifs flow seamlessly into geometrics and ornaments, and all wallpapers are united by Ganni's characteristic Versace sign - the jellyfish. The attention to detail and the excellent quality of the vinyl from which the wallpapers are made is a perfect combination. Vinyl wallpaper on fleece. Washable, impact resistant, easy to install.
