Product description:

Arte Les Thermes . The wallpaper shows people bathing in thermal springs. The inspiration for this design came from the Tuscan village of Saturnia, famous for its hot springs. The textile wallpaper was made using the fil-à-fil method, which has a weave of natural threads with the addition of gold or silver. Thanks to this, the water sheen becomes the main asset and the interior takes on an exclusive character. A wallpaper ideal for art connoisseurs . The wallpaper was designed by the Belgian brand Arte International, in the Les Thermes collection. Synonymous with luxury and sophisticated good style.
