Product attributes:**Product description:**

Wallpaper with a botanical pattern of dense leaves which have been applied to a background with a plaster effect. The play of light and shadow creates additional depth in the interior. An original motif that, very well, will present itself in many unique arrangements. Ideal for minimalist, modern and modern elegance interiors. The top layer of wallpaper is covered with high-quality vinyl, which perfectly protects the wall from damage. In addition, we have an amazing effect on the wall, which looks as if the wall has a structure with thick embossing. The vinyl wallpaper is characterised by its high resistance to washing and mechanical damage. The wallpaper was designed by the Belgian brand Arte International, in the Sculptura collection. Synonymous with luxury and sophisticated good style. Large XXL rolls - 10 metres and 70 cm wide.
