The wallpaper collection by French brand CASAMANCE was inspired by the legendary jazzman Ellington and his music. This luxurious wallpaper collection, full of elegance, showcases designs that adorned the interiors of jazz clubs, gourmet restaurants and exclusive hotels in the 1920s and 1930s. Among the patterns we find classic Art Deco fans, dynamic mechanisms in rich colours, blurred compositions reminiscent of the structure of mamrur, graphic mosaics inspired by the work of René Lalique. These designs are complemented by smooth coordinates. The entire catalogue is maintained in a warm variety of colours. Gold, navy blue, black, bottle green, beiges and greys everyone will find the right shade for themselves.
