Product attributes:**Product description:**

The unusual wallpaper 74390268 from the Mansour collection by the French company Casamance is inspired by the exotic climate of Marrakech. This is where Haute couture master Yves Saint Laurent got the ideas for his creations and invented luscious colours and strong fabric structures. This is also the case with this facing - reminiscent of a canvas, thickly woven with shaded thread. The golden sheen and the brown and green colour are exotic elegance at its best. The wallpaper 74390268 from the Mansour collection will be ideal for those who want to change their interior with a single detail and are not afraid of original solutions. Vinyl wallpaper on a fleece backing. Washable
