## **Product description:**

A modern wallpaper on gold foil with a motif of a fine metallic mosaic with luminous reflections. The pattern resembles a carved relief that has been made on a metallic backing. The wallpaper gives the impression of a three-dimensional wall thanks to its convexity. The shimmering finish adds glamour, class and a sophisticated tone to the interior. Wallpapers from the Metal - Textures Metalliques collection from the French Brand Casamance, were designed after inspiration from original jewellery patterns. Sophisticated designs that create geometry, play with texture and shine. A perfect match for modern, modern elegance, loft and eclectic interiors, taking luxury to the highest level. Vinyl wallpaper - washable on a fleece backing.
