Product attributes:**Product description:**

The light cream imitation leather shows off the product like a reptile covering in an interesting way. Wallpaper by the French brand Casadeco. Realistically reflects the texture, the perceptible structure like scales will give an interesting effect on the wall. The surface of the wallpaper is made of vinyl, which is characterised by very good resistance to washing and mechanical damage. This product is perfect for the living room or bedroom. This product will give an elegant and extravagant effect in the interior. The wallpaper is on a fisible backing and during installation we apply glue to the wall.
