Product description:

A self-adhesive wallpaper designed by the illustrious and acclaimed illustrator Anna Bond, founder of the RIFLE PAPER CO brand, who has created a beautiful wallpaper collection in collaboration with the American manufacturer York Wallcoverings. The pattern was inspired by the legendary gardens of Luxembourg palaces and is characterised by curved, symmetrical floral vines, greenery and the occasional bird, creating a classic, elevated pattern. The wallpaper will beautifully decorate the walls of homes and flats decorated in either Scandinavian, rustic, boho or eclectic styles. The interesting motif will also find application in children's rooms. The wallpaper is easy to install and remove, without glue marks or damage to the wall surface, and can be used repeatedly thanks to the modern Peel & Stick technology. It is an interesting way to liven up/change any space: wall, furniture or electronic equipment.
