Product codes:

Reference: MO4052

EAN13: -

UPC: -

Product features:

Manufacturer: Arte

Collection: Memento Moooi

Product attributes:**Product description:**

The 3D geometric wallpaper with soft chenille fabric was inspired by the annual migration of Pogo goats. The intricately crafted three-dimensional pattern will keep you guessing as to what long-distance journey these extraordinary animals have been on. The wall covering will perfectly present itself in many original arrangements, both eclectic and contemporary, as well as stylish and elegant. The wall cladding will decorate the interiors of the living room, dining room, study and living room, and will become the most important accent, which cannot be passed by indifferently. The wonderful collection Arte Memento Moooi was created as a result of cooperation between two great brands, the Belgian wallpaper manufacturer Arte and the Dutch brand designing interior accessories Moooi. The collection is inspired by the world of fauna and celebrates the diversity of nature, stimulating you to push the boundaries of your imagination. The starting point for the wallpaper designs were animals that are now extinct, their unexpected diversity, beauty in all forms. Wallcovering sold by running metres, width 120 cm
