Product description:

Unusual wallpaper by the Belgian manufacturer Decoprint from the Breeze collection. It will add freshness and a pinch of exoticism to any interior. The repeating pattern of palm trees looks as if painted by the hand of an artist, inspired by the avant-garde of Matisse and Raoul Dufy. It is perfect for both the living room and the bedroom. A premium quality vinyl wallpaper on a fleece backing, manufactured with care for the environment. Resistant to damage and sunlight, washable.
