Product attributes:**Product description:**

This unique wallpaper from the Imprint collection shows beige shaded hexagons on a white background. The pattern blurs through the transverse striations - the whole is light and gives the impression of cosiness. An ideal cladding for the living room or bedroom, it perfectly reflects the atmosphere of the collection. Imprint cladding is a collection of geometric, shimmering metallic patterns inspired by contemporary architecture. The calm, natural colours and simple motifs reflect what is currently on trend in modern design. A strong point of the collection is the distinct texture, which gives many of the patterns a 3D effect. Greys, blacks and browns, hecasigons, stripes, shading - plenty of ways to give interiors a non-facial feel. Acrylic wallpaper, washable.
