**Product attributes:****Product description:**

The unique wallpaper from the Imprint collection imitates snake skin. The beige colour with a delicate sheen is shaded, giving the facing a 3D impression. The animal motif is trendy and will perfectly complement modern interiors, giving them a touch of exoticism. Imprint cladding is a collection of geometric, shiny metallic patterns inspired by contemporary architecture. The calm, natural colours and simple motifs reflect what is currently on trend in modern design. A strong point of the collection is the distinct texture, which gives many of the patterns a 3D effect. Greys, blacks and browns, hecasigons, stripes, shading - plenty of ways to give interiors a non-facial feel. Acrylic wallpaper, washable.
