## **Product description:**

The IR70604 wallpaper from the American company's Wallquest Modern Foundation collection fits perfectly into the original character of the entire collection. The aged ornaments on metal panels are arranged in a large, classic pattern. The brown and blue colour scheme with a golden sheen and abrasions give the cladding a raw and slightly industrial feel. The cladding is ideal for those who like a modern take on the classic and is sure to give any interior a unique character.
