Product description:

The unique SUMI AF40202 wallpaper from the American WALLQUEST collection features spreading leaves in blue and black. The entire collection is inspired by the culture, architecture and lifestyle of the people of eastern America. It consists of patterns that refer to nature, such as leaves, stone and hand-painted landscapes. There is a lot of colour in this collection - strong reds, blues, strong greys and greens. Many of the facings have a beautiful, elegant sheen, which emphasises the richness and nobility of the design. The SUMI collection is a mix of diverse and cheerful motifs that will enrich any interior, giving it an individual and unique character. Acrylic wallpaper on a paper base. Washable
