Product description:

The unique wallpaper SUMI AF41301 From the collection of the American company WALLQUEST depicts birds sitting among flowers on the branches of a tree. The entire collection is inspired by the culture, architecture and lifestyle of the inhabitants of eastern America. It consists of patterns that refer to nature, such as leaves, stone and hand-painted landscapes. There is a lot of colour in this collection - strong reds, blues, strong greys and greens. Many of the facings have a beautiful, elegant sheen, which emphasises the richness and nobility of the design. The SUMI collection is a mix of diverse and cheerful motifs that will enrich any interior, giving it an individual and unique character. Acrylic wallpaper on a paper base. Washable
