Product attributes:**Product description:**

Vinyl wallpaper from the Tahiti collection by the Belgian manufacturer Decoprints. The structure of the product imitates a trawl, it will perfectly complement the interior of houses and flats. The product is a co-ordinate proposed by the manufacturer for wallpapers from the collection, but it will work perfectly as a decoration on its own. Shades in natural earthy colours are complemented by the structural finish of the vinyl wallpaper. The product is ideal for decorating the walls of a living room, office or bedroom, both for modern interiors and those with an industrial character. Vinyl wallpaper on a fleece backing. Washable. Resistant to damage.
