Product description:

Vinyl wallpaper from the Reflect collection by Belgian manufacturer Decoprints. The geometric pattern presents wooden panels in various arrangements like a mosaic, adding an interesting character to the wall. The wallpaper imitates wooden panels, which is an interesting contrast to the modern, geometric motif. The product is ideal for decorating the walls of a living room, office or bedroom. Nature patterns, geometric weaves, natural planks and stones. The charming wallpaper will suit any interior. Vinyl wallpaper on fleece. Resistant to mechanical damage and moisture.
