~~z15~~12.00 tax included

Product codes:

Reference: NA0534

EAN13: -

UPC: -

Product features:

Brand: Candice Olson Botanical Dreams

Product attributes:**Product description:**

The original wallpaper from the Botanical Dreams collection imitates the waves of the ocean. The impression is that the blurred, blue-grey lines ripple and intertwine, which looks very natural. The cladding will bring an unusual, slightly dreamy atmosphere to the interior. The Botanical Dreams cladding collection is another example of the collaboration between York and designer Candice Olson. In it, Candice returns to her roots and shows a romantic nature. There is clear inspiration from gardens, parks. There are a lot of floral motifs and simple geometrics in blues, greys and beige and a touch of glitter with the use of quartz sand adds a feminine touch. Beautiful design, excellent quality, easy to install - this collection is hard to resist. Washable wallpaper on a fleece backing. Easy to dismantle.
