The blurring pattern in a delicate colour is perfectly in keeping with the atmosphere of the collection created by Candice Olson. The elegant wallpaper will work well in both the living room and bedroom. The Botanical Dreams cladding collection is another example of the collaboration between York and designer Candice Olson. In it, Candice returns to her roots and shows a romantic nature. There is clear inspiration from gardens, parks. There are a lot of floral motifs and simple geometrics in blues, greys and beige and a touch of glitter with the use of quartz sand adds a feminine touch.
