Product attributes:**Product description:**

A modern wallpaper with a motif of linear circles with luminous reflections. The pattern is reminiscent of a carved relief that has been created on a metallic base. The wallpaper gives the impression of a three-dimensional wall thanks to its convexity. The shimmering finish adds glamour, class and a sophisticated tone to the interior. The wallpapers in the Metal - Textures Metalliques collection from the French brand Casamance, have been designed after inspiration from original jewellery patterns. Sophisticated designs that create geometry, play with texture and shine. They fit perfectly into modern, art-deco, modern elegance, loft and eclectic interiors. Taking luxury to the highest level. Vinyl wallpaper - washable on a fleece backing.
