A unique mural from the Smart Art collection with a Spanish tile motif - azulejo is a very fashionable pattern that architects like to use. In this facing it appears in a white and black, slightly aged version, creating a spatial effect, which gives great design possibilities. Each mural in the collection tells a different story, told using several panels that form a single image-like whole. There are plant motifs in vivid colours, animals as if taken straight from the jungle, large geometries and timeless stripes. The murals have a tactile structure, are resistant to damage and work beautifully with light. In this collection everyone will find something to make their interior unique and unusual.
